## HODGKIN AND NON-HODGKIN LYMPHOMA STAGING FORM

<p style="text-align: center;"><b>PROGNOSTIC FACTORS (SITE-SPECIFIC FACTORS)</b></p> <p><b>REQUIRED FOR STAGING:</b> None</p> <p><b>CLINICALLY SIGNIFICANT:</b></p> <p>Associated with HIV/AIDS _____</p> <p>Symptoms at diagnosis (B symptoms) _____</p> <p>International Prognostic Index (IPI) score _____</p> <p>Follicular Lymphoma Prognostic Index (FLIPI) score _____</p> <p>International Prognostic Score (IPS) _____</p>	<p><b>General Notes:</b> For identification of special cases of TNM or pTNM classifications, the "m" suffix and "y," "r," and "a" prefixes are used. Although they do not affect the stage grouping, they indicate cases needing separate analysis.</p> <p><b>m suffix</b> indicates the presence of multiple primary tumors in a single site and is recorded in parentheses: pT(m)NM.</p> <p><b>y prefix</b> indicates those cases in which classification is performed during or following initial multimodality therapy. The cTNM or pTNM category is identified by a "y" prefix. The ycTNM or ypTNM categorizes the extent of tumor actually present at the time of that examination. The "y" categorization is not an estimate of tumor prior to multimodality therapy.</p> <p><b>r prefix</b> indicates a recurrent tumor when staged after a disease-free interval, and is identified by the "r" prefix: rTNM.</p> <p><b>a prefix</b> designates the stage determined at autopsy: aTNM.</p>				
<p><b>Histologic Grade (G) (also known as overall grade)</b></p> <table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 40%;"><b>Grading system</b></th> <th style="width: 60%; text-align: center;"><b>Grade</b></th> </tr> </thead> <tbody> <tr> <td style="vertical-align: top;"> <input type="checkbox"/> 2 grade system  <input type="checkbox"/> 3 grade system  <input type="checkbox"/> 4 grade system  <input type="checkbox"/> No 2, 3, or 4 grade system is available         </td> <td style="vertical-align: top; text-align: center;"> <input type="checkbox"/> Grade I or 1  <input type="checkbox"/> Grade II or 2  <input type="checkbox"/> Grade III or 3  <input type="checkbox"/> Grade IV or 4         </td> </tr> </tbody> </table>		<b>Grading system</b>	<b>Grade</b>	<input type="checkbox"/> 2 grade system <input type="checkbox"/> 3 grade system <input type="checkbox"/> 4 grade system <input type="checkbox"/> No 2, 3, or 4 grade system is available	<input type="checkbox"/> Grade I or 1 <input type="checkbox"/> Grade II or 2 <input type="checkbox"/> Grade III or 3 <input type="checkbox"/> Grade IV or 4
<b>Grading system</b>	<b>Grade</b>				
<input type="checkbox"/> 2 grade system <input type="checkbox"/> 3 grade system <input type="checkbox"/> 4 grade system <input type="checkbox"/> No 2, 3, or 4 grade system is available	<input type="checkbox"/> Grade I or 1 <input type="checkbox"/> Grade II or 2 <input type="checkbox"/> Grade III or 3 <input type="checkbox"/> Grade IV or 4				
<p><b>ADDITIONAL DESCRIPTORS</b></p> <p><b>Lymphatic Vessel Invasion (L) and Venous Invasion (V)</b> have been combined into Lymph-Vascular Invasion (LVI) for collection by cancer registrars. The College of American Pathologists' (CAP) Checklist should be used as the primary source. Other sources may be used in the absence of a Checklist. Priority is given to positive results.</p> <p><input type="checkbox"/> Lymph-Vascular Invasion Not Present (absent)/Not Identified  <input type="checkbox"/> Lymph-Vascular Invasion Present/Identified  <input type="checkbox"/> Not Applicable  <input type="checkbox"/> Unknown/Indeterminate</p>					
<p><b>Residual Tumor (R)</b></p> <p>The absence or presence of residual tumor after treatment. In some cases treated with surgery and/or with neoadjuvant therapy there will be residual tumor at the primary site after treatment because of incomplete resection or local and regional disease that extends beyond the limit of ability of resection.</p> <p><input type="checkbox"/> RX Presence of residual tumor cannot be assessed  <input type="checkbox"/> R0 No residual tumor  <input type="checkbox"/> R1 Microscopic residual tumor  <input type="checkbox"/> R2 Macroscopic residual tumor</p>

## HODGKIN AND NON-HODGKIN LYMPHOMA STAGING FORM

### Illustration

Indicate on diagram primary tumor and regional nodes involved.

### Lymph nodes above the diaphragm

1. Waldeyer's ring
2. Cervical, supraclavicular, occipital, and pre-auricular
3. Infraclavicular
4. Axillary and pectoral
5. Mediastinal
6. Hilar
7. Epitrochlear and brachial

### Lymph nodes below the diaphragm

8. Spleen
9. Mesenteric
10. Paraaoctic
11. Iliac
12. Inguinal and femoral
13. Popliteal
