

our values at work

As a not-for-profit health care system, Franciscan Health System relies on community support and philanthropy to provide top quality, holistic health care to all in need, regardless of their ability to pay.

At a time when patients need hope and healing, the Franciscan Health System is here to help—from diagnoses to recoveries—backed by your generous contributions.

With services throughout the South Sound, you and your family members have access to advanced medicine and trusted care close to home.

How you can help

With your help we can continue to offer the highest quality care in our hospitals, clinics and facilities. Combining compassion and medical excellence, we provide leading edge, comprehensive care.

Cancer Care

Our team includes the best oncologists, radiologists, surgeons and other cancer experts to help our patients in their fight against cancer.

Cardiovascular Services

More people trust their hearts to St. Joseph Heart & Vascular Center than to any other heart center in the South Sound.

Emergency Services

Charitable donations allow us to provide 24-hour care for medical emergencies, providing expert assessment and medical care in our state-of-the-art operating rooms and advanced critical care units.

Hospice and Palliative Care

We offer a complete range of compassionate, professional medical care and services for persons with life-limiting illnesses, including home hospice care and Franciscan Hospice House.

Mental Health Services

We offer the only voluntary, inpatient psychiatric care available in Pierce and South King counties, providing critical stabilization and support when persons with mental illness are in crisis.

Pastoral and Spiritual Care

We believe in caring for the whole person—body, mind and spirit. Our compassionate and skilled chaplains bring invaluable consolation and support to our patients and their families.

Serving the Poor in our Community

As part of our mission to create healthier communities, we offer many health education and prevention programs to the disadvantaged and underserved in our community.

St. Joseph Hyperbaric / Wound Care

We provide hyperbaric oxygen medical treatment services, which are designed to thoroughly evaluate and treat wound care patients.

Stroke and Neurological Care

We are a regional leader in neuroscience medicine and therapies, including stroke intervention and recovery, providing the most advanced stroke care to decrease death and disability from stroke and aneurism.

Women's Care and Services

We are dedicated to meet the unique health care needs of women at all stages of life. We provide our patients with the highest, most comprehensive levels of care through a blend of advanced diagnostic and treatment services, complementary therapies, educational programs, and support groups.

“For it is in giving that we receive.”

—St. Francis of Assisi

together we build healthier communities

Our mission

We strive to provide funding for critical, priority needs for Franciscan Health System. Funding contributes to overall medical excellence and compassionate care, and supports vital areas and services.

Meeting the goal to maintain the highest standard of care benefits you and the community. We rely on contributions for the greatest need and other funding priorities to meet service needs in our hospitals and clinics.

Give where the need is greatest. Or make a gift in an area that is important to you.

reverence integrity compassion excellence

How we served our community during the past fiscal year:

- 644 patients admitted to Hospice House
- Served 2,735 home-based Hospice and Palliative care patients
- Provided \$75.3 million in community benefit services, including over \$26 million in charity care
- Responded to 193,096 patient-emergency visits
- 48,532 patients admitted to Franciscan hospitals
- Served 180,279 patients at our Franciscan Medical Group primary care and specialty care clinics
- Franciscan Health System ranked among the top 100 best performing, most efficient health systems in the nation for the past eight years
- A total of 2,113 individuals served as volunteers throughout Franciscan hospitals and other care facilities, contributing 165,059 hours of service
