

# Commonly Used CPT Codes for CT (Computed Tomography)

Harrison Imaging Centers

Procedure	CPT Code	Indications
CT Abdomen Pelvis with and without IV Contrast	74178	IVP, Hematuria-Kidneys, Ureter, Bladder
CT Abdomen Pelvis with IV Contrast	74177	Emergent Appendicitis
CT Abdomen Pelvis without IV Contrast	74176	KUB Renal Colic - Kidney Stones, Ureters, Bladder
CT Abdomen with and without IV Contrast	74170	Pancreas, Liver, Adrenal
CT Angiogram Abdomen Pelvis with and or without IV Contrast	74174	CT Angiography - Aorta, Bifurcation, Mesenteric, Internal/Ext Iliac Arteries, Aneurysm, Dissection
CT Angiogram Abdomen with and or without IV Contrast	74175	CT Angiography- Visualization of Abdominal Aorta, Splenic, Celiac and Renal Arteries
CT Angiogram Abdominal Aorta and Iliofemoral Runoff with and or without IV Contrast	75635	CT Angiography. Visualization Abdominal , Pelvic and Bilateral Lower Extremity Arteries
CT Angiogram Chest Abdomen Pelvis with and without IV Contrast	71275 72174	Combined CT Angiogram Chest/Abdomen/Pelvis
CT Angiogram Chest with and without IV Contrast	71275	CT Chest Angiography- Visualization Chest Great Vessels, Pulmonary Arteries, Thoracic Aorta. Pulmonary Embolism, Aneurysm, Dissection, Widen Mediastinum

<b>Procedure</b>	<b>CPT Code</b>	<b>Indications</b>
CT Cervical Spine with IV Contrast	72126	Abscess , Infection, Discitis
CT Cervical Spine without IV Contrast	72125	Trauma, Fracture, Neck Pain, Degenerative Disc Disease , HNP
CT Chest High Resolution	71250	Follow up on Pulmonary Nodule
CT Chest with IV Contrast	71260	Most common, Lung, Chest Mass, Nodule, Tumor, Pneumonia, Abscess, abnormal Chest X-ray, SOB, Chest Pain
CT Chest without IV Contrast	71250	Follow up on Pulmonary Nodule
CT Enterography Abdomen and Pelvis with IV Contrast	74177	Bowel Disease, Crohn's Disease
CT Head with IV Contrast	70460	Tumor or Mass, Metastatic Disease, Abscess, Infection, Follow-up
CT Head without IV Contrast	70450	Most common, Acute Headaches , Trauma Bony Abnormality, Fracture, Dizziness, CVA, TIA, Dementia, Altered Mental Status (AMS)
CT Heart Calcium Score without IV Contrast	75571	Calcium Score Quantification
CT Landmark Sinus without IV Contrast	70486	Pre-Surgical Scan- Sinus

Procedure Name	CPT Code	Indications
CT Lower Extremity with IV Contrast	73701	Soft Tissue, Mass, Tumor, Cellulites, Abscess. Infection, Osteomyelitis. Limit scan area to area of interest *Not CT Angiogram
CT Lower Extremity without IV Contrast	73700	Trauma, Fracture, Bone Detail, Erosion, Post Op Fracture Status, Non-Union Limit scan area to area of interest
CT Lumbar Spine with IV Contrast	72132	After myelogram, Abscess, Infection, Discitis
CT Lumbar Spine without IV Contrast	72131	Trauma, Fracture, Low Back Pain, Degenerative Disc Disease , HNP
CT Maxillofacial without IV Contrast	70486	Trauma, Fracture
CT Pelvis with IV Contrast	72193	Evaluate organs of the Pelvis- Bladder, Ovaries, Uterus, Prostate. LLQ or RLQ Pain, Mass, Pelvic Tumor, Inguinal Hernia, Abscess *Not usually ordered without CT Abdomen.
CT Pelvis without IV Contrast	72192	Evaluate Bony structures of the Pelvis-Trauma, Fracture, Lesions
CT Soft Tissue Neck with IV Contrast	70491	Soft Tissue Structures, Thyroid, Lymph Nodes, Larynx, Salivary Glands- Tumor or Mass, Difficulty Swallowing, Enlarged Lymph Nodes, Lymphoma, Abscess

Epic Procedure Name	CPT Code	Indications
CT Thoracic Spine with IV Contrast	72129	After myelogram, Abscess, Infection, Discitis
CT Thoracic Spine without IV Contrast	72128	Trauma, Fracture, Mid Back Pain, Degenerative Disc Disease , HNP
CT Upper Extremity with IV Contrast	73201	Soft Tissue, Mass, Tumor, Cellulites, Abscess, Infection, Osteomyelitis. Limit scan area to area of interest only *Not CT Angiogram
CT Upper Extremity without IV Contrast	73200	Trauma, Fracture, Bone Detail, Erosion. Post Op Fracture status, Non-Union Limit scan area to area of interest only

Indications and exams provided as a general guideline. Should you have questions about exam appropriateness, consult a radiologist or the ACR Appropriateness Criteria®.

ACR Appropriateness Criteria® are evidence-based guidelines to assist referring physicians and other providers in making the most appropriate imaging or treatment decision for a specific clinical condition. By employing these guidelines, providers enhance quality of care and contribute to the most efficacious use of radiology.

[http://www.acr.org/SecondaryMainMenuCategories/quality\\_safety/app\\_criteria.aspx](http://www.acr.org/SecondaryMainMenuCategories/quality_safety/app_criteria.aspx)

*For patients requiring IV contrast for either CT or MRI: Recent (30 days) creatinine and BUN lab results will be requested for patients over age 60 or with a history of kidney disease, hypertension and/or diabetes.*

# Commonly Used CPT Codes for MRI

Harrison Imaging Centers

Procedure	CPT Code	Indications
MRI Abdomen with and without IV Contrast	74183	Liver, Spleen, Kidneys, Adrenal glands, Pancreas, Tumor, Mass, Cysts
MRI Abdomen without IV Contrast	74181	Evaluate Gallbladder, Common Bile Duct, Pancreatic Duct, Stones
MRI Angiogram Abdomen with and without IV Contrast	74185	MR Angiogram-Abdominal Aorta to include bifurcation-Renal, Celiac, Super/Inferior Mesenteric Arteries
MRI Angiogram Chest with and without IV Contrast	71555	MR Angiogram- Great Vessels
MRI Angiogram Head with and without IV Contrast	70546	MR Angiogram- Brain, Aneurysm, Stroke
MRI Angiogram Neck with and without IV Contrast	70549	MR Angiogram -Carotid, Subclavian and Vertebral Arteries-Include Aortic Arch to Circle of Willis
MRI Ankle with and without IV Contrast	73723	Inflammation, Infection, Osteomyelitis, Tumor, Mass
MRI Ankle without IV Contrast	73721	Most Common. Ligament/Tendon Tears, Avascular Necrosis, Trauma, FX
MRI Brachial Plexus	71552	Chest Mass, Tumor
MRI Brain with and without IV Contrast	70553	MS, Cancer History, IAC
MRI Brain without IV Contrast	70551	Routine, Headache
MRI Breast with and without IV Contrast	77059	New Cancer Diagnosis, History

<b>Procedure</b>	<b>CPT Code</b>	<b>Indications</b>
MRI Cervical Spine with and without IV Contrast	72156	MS, Cancer History, Cord lesion, Discitis
MRI Cervical Spine without IV Contrast	72141	Most Common - Neck Pain, Suspected HNP, Trauma
MRI Elbow with and without IV Contrast	73223	Inflammation, Infection, Osteomyelitis, Tumor, Mass
MRI Elbow with IV Contrast	73222	Arthrogram – Tear, Ligament Injury, Surgery
MRI Elbow without IV Contrast	73221	Most Common - Ligament or Tendon Tear, Trauma, FX, Avascular Necrosis
MRI Foot with and without IV Contrast	73720	Inflammation, Infection, Osteomyelitis, Tumor, Mass
MRI Foot without IV Contrast	73718	Most Common - Ligament or tendon Tear, Trauma, FX
MRI Hip with and without IV Contrast	73723	Inflammation, Infection, Osteomyelitis, Tumor, Mass
MRI Hip with IV Contrast	73722	Arthrogram – Tear, Ligament Injury, Surgery
MRI Knee with and without IV Contrast	73723	Inflammation, Infection, Osteomyelitis, Tumor, Mass
MRI Knee with IV Contrast	73722	Arthrogram – Tear, Ligament Injury, Surgery
MRI Knee without IV Contrast	73721	Most Common - Ligament/Tendon Tears, Meniscal Tears, Avascular Necrosis, Trauma, FX

<b>Procedure</b>	<b>CPT Code</b>	<b>Indications</b>
MRI Lumbar Spine with and without IV Contrast	72158	MS, Cancer History, Cord Lesion, Discitis, Tumor, Post-operative
MRI Lumbar Spine without IV Contrast	72148	Most Common - Back Pain, Suspected HNP, Trauma
MRI MRCP without IV Contrast	74181	Evaluate Gallbladder, Common Bile duct, Pancreatic Duct, Stones
MRI Orbit Face and or Neck with and without IV Contrast	70543	Inflammation, Infection, Osteomyelitis, Tumor, Mass
MRI Orbit Face and or Neck without IV Contrast	70540	Larynx, Lymph Nodes
MRI Pelvis with and without IV Contrast	72197	Inflammation, Infection, Osteomyelitis, Pelvic organs- Uterus, Bladder, Prostate, Ovaries
MRI Pelvis without IV Contrast	72195	Bony Pelvis, Uterus, Defecogram
MRI Prostate with and without IV Contrast	72197	Prostate Specific Protocol *Schedule at Bremerton Prostate Coil only
MRI Shoulder with and without IV Contrast	73223	Inflammation, Infection, Osteomyelitis, Tumor, Mass
MRI Shoulder with IV Contrast	73222	Arthrogram – Tear, Ligament Injury, Surgery
MRI Shoulder without IV Contrast	73221	Most Common - Rotator cuff Tear, Ligament or Tendon Tear, Trauma, FX, Avascular Necrosis
MRI Temporomandibular Joints	70336	TMJ, Dental

# Commonly Used CPT Codes for MRI

Harrison Imaging Centers

Procedure	CPT Code	Indications
MRI Thoracic Spine with and without IV Contrast	72157	MS, Cancer History, Spinal Surgery History, Discitis
MRI Thoracic Spine without IV Contrast	72146	Most Common - Mid Back Pain, Suspected HNP, Trauma
MRI Wrist with and without IV Contrast	73223	Inflammation, Infection, Osteomyelitis, tumor, Mass
MRI Wrist with IV Contrast	73222	Arthrogram – Tear, Ligament Injury, Surgery
MRI Wrist without IV Contrast	73221	Most Common - Ligament or Tendon Tear, Trauma, FX, Avascular Necrosis

# Commonly Used CPT Codes for Ultrasound

Harrison Imaging Centers

Procedure	CPT Code	Indications
US Abdomen Complete	76700	Abdominal Pain, Nausea and/or Vomiting, Abnormal Liver Function Test
US Abdomen Limited	76705	Specific Organ or Region - Hernia, Pyloric Stenosis, Appendix, RUQ, Abdominal Wall Evaluation , Gallstones, Hepatitis
US Abdominal Aorta Limited	76775	Diagnostic Aorta Evaluation
US Breast Biopsy Initial Lesion	19083	Mass, Lesion
US Breast Complete	76641	Screening - Complete Breast and Axilla
US Breast Limited	76642	Diagnostic - Specific Targeted Area
US Chest	76604	Pleural Effusion, Mass
US Extremity Non Vascular Limited	76882	Joint Pain, Tendon/Ligament Pain, Fluid Collection, Mass
US Fetal Biophysical Profile without Non Stress Testing	76819	Biophysical Profile Only. Add OB Limited if Additional Needed
US Hysterosonogram	76831	Uterine Abnormalities, Infertility, Multiple Miscarriage
US Infant Hips with Manipulation	76885	Dysplasia, Breech Birth, Hip Click, Family History of DDH

<b>Procedure</b>	<b>CPT Code</b>	<b>Indications</b>
US Medicare AAA Screen	G0389	Medicare Abdominal Aorta Screening
US OB Detail Fetal Anatomy Single or First Gestation	76811	Fetal Survey Only, Gestational Age of 18-20 Weeks
US OB Greater than 14 Weeks and OB Transvaginal	76805	Cervical Length, Pre-Term Labor, Cramping, Spotting, History of Cervical Incompetence, Placenta Previa or Placenta Location
US OB Less than 14 Weeks Single or First Gestation and OB Transvaginal	76801	Early OB study with Transvaginal to Visualize Anatomy
US OB Less than 14 Weeks Transabdominal Single Gestation	76801	Early OB study, no TV
US OB Limited	76815	AFI, HR, Placenta or Position
US OB Transvaginal	76817	AFI, HR, Placenta or Position with Transvaginal Imaging to Visualize Anatomy
US Pelvis Complete (Transabdominal Only)	76856	Pain, Ovarian Cyst, Ovarian Torsion Fibroid Uterus, Post-Menopausal Bleeding
US Pelvis Complete and US Non-OB Transvaginal	76856	Pain, Ovarian Cyst, Ovarian Torsion Fibroid Uterus, Post-Menopausal Bleeding, with TV to Visualize Anatomy
US Pelvis Limited	76857	Urinary Retention, Post Void Residual, Enlarged Prostate, Bladder Outlet Obstruction

<b>Procedure</b>	<b>CPT Code</b>	<b>Indications</b>
US Retroperitoneal Complete	76770	Kidney Stone, Hematuria, ARF, CRI, Follow-up Hydronephrosis
US Retroperitoneal Limited	76775	Flank Pain, Renal Failure, Trauma, Hydronephrosis, Renal Stone
US Scrotum and Testicles	76870	Pain, Mass, Torsion
US Thyroid Parathyroid Neck	76536	Mass, Enlarged Thyroid or Parathyroid, Hyper- or Hypothyroidism, History of Thyroid Cancer
Vascular AAA Duplex Limited	93979	Diagnostic Aorta Evaluation
Vascular Arterial Lower Extremity Duplex Bilateral	93925	Aneurysm, Arterial Embolus, Graft Evaluation
Vascular Arterial Lower Extremity Duplex	93926	Aneurysm, Arterial Embolus, Graft Evaluation
Vascular Carotid Duplex Bilateral	93880	Syncope, Hemiplegia, Difference in Arm Blood Pressure, Aphasia, Ataxia
Vascular Inferior Vena Cava Duplex Limited	93979	
Vascular Portal Hepatic Venous Duplex Limited	93976	Cirrhosis or Hepatic Disease, Ascites, Varices, Portal Vein Thrombosis

<b>Procedure</b>	<b>CPT Code</b>	<b>Indications</b>
Vascular Renal Duplex Bilateral	93975	Renal Artery Stenosis, Uncontrolled Hypertension, Renal Bruit, Stent Follow-Up
Vascular Veins Lower Extremity Duplex Bilateral	93970	DVT, Postphlebotic Ulcer, Varicose Veins with Pain
Vascular Veins Lower Extremity Duplex	93971	DVT, Postphlebotic Ulcer, Varicose Veins with Pain

Indications and exams provided as a general guideline. Should you have questions about exam appropriateness, consult a radiologist or the ACR Appropriateness Criteria®.

ACR Appropriateness Criteria® are evidence-based guidelines to assist referring physicians and other providers in making the most appropriate imaging or treatment decision for a specific clinical condition.
